MEMORANDUM FOR: Director of Information Technology

FROM: Julian Caballero, Jr.
Director of Development and Engineering

SUBJECT: Request for Support on the LADS System at [redacted]

25X1

1. Our Program Office has received a request from [redacted] to seek the services of [redacted] in developing and installing software enhancements for the LADS system at [redacted]. The software support personnel at [redacted] are fully committed at this time to maintaining the operational software [redacted] thus forcing us to look elsewhere for resources to upgrade the LADS system. There are few people who have [redacted] knowledge of this software system and since he has helped our program out in this regard in the past, we would like to seek his support again. The effort required is approximately six weeks to develop the software changes and two weeks at [redacted] for installation and training. [redacted]
